EXPERIENCE

Full Stack Engineer

Kubicbits

📅 April 2024 – October 2025

📍 Casablanca

- Architected high-performance web applications using Next.js and TypeScript, resulting in 40% faster load times and improved SEO rankings. .
- Engineered robust RESTful APIs with Django and Django REST Framework, implementing comprehensive authentication patterns while achieving 95% test coverage with pytest.
- Implemented Celery for distributed task processing, increasing system throughput by 60% and optimizing performance through Redis caching strategies.
- Designed and executed full-stack feature implementation from database schema to React component integration and CI/CD pipeline deployment.

Frontend Engineer

Veylinx

📅 Sept 2023 – February 2024

📍 Netherland

- Contributed to front-end development for a market research SaaS platform, building responsive UI components that increased user engagement by 35% and reduced bounce rates by 22%.
- Collaborated with cross-functional teams to deliver 12+ features on schedule while maintaining code quality and performance standards.
- Implemented comprehensive end-to-end testing framework using Playwright, achieving 90% test coverage across critical user journeys and reducing post-release defects by 40
- Designed and executed performance optimization strategies, including code splitting, lazy loading, and SSR implementation, resulting in 65% improvement in page load speeds.

Full Stack Developer (Graduate Internship)

Kubicbits

📅 February 2023 – July 2023

📍 Casablanca

- Developed and maintained transportation management web applications using React/Redux, TypeScript, and Django, improving UI efficiency by 25%.
- Built scalable RESTful APIs and backend systems using Python, Django, and Django REST Framework (DRF).
- Collaborated with cross-functional teams to implement new features and enhance existing functionality within sprint deadlines.
- Implemented automated testing protocols that reduced post-deployment issues by 40%.
- Managed codebase using Git version control to ensure clean repository structure and team collaboration.

EDUCATION

Master degree in Computer and Mobile Systems

Faculty of Science and Technology Tangier

📅 Tangier, Morocco, 2023

Database administration • Cloud computing
• Project management • Shell Scripting & System Programming

B.S in Computer Engineering

Faculty of Science and Technology Tangier

📅 Tangier, Morocco, 2021

OOP (C++ & Java) • Databases • Client/Server Architecture & Dynamic Web Development • UNIX/Linux • UML Modeling

TECHNICAL SKILLS

Frontend

NextJs • ReactJs • Angular • Javascript/Typescript • Tailwind CSS • Redux • HTML/CSS

Backend

Java/SpringBoot • Django/Python • Node.js • Restfull API • MySql • Postgresql • Celery • Redis • Docker

Version Control

Github • Git

Testing

• Playwright • Cypress • Selenium

SOFT SKILLS

Communication

Team work

Curiosity

CERTIFICATIONS

• Frontend Developer (React) @HackerRank

LANGUAGES

Arabic • English • French • Spanish
